

What our tutors say:

My own son is mildly autistic so when I tutor a child with this problem I know just what to do. I get a lot of satisfaction when I see improvement in reading, more writing skills and math readiness. I am very patient and encouraging and able to motivate children into not only a readiness to learn, but an enjoyment in tutoring. **Janice M./ W.Covina.**

I am experienced in home-schooling and want to help my community by helping children achieve their goals. **Angela B/San Bernardino.**

My areas of expertise are elementary subjects, remedial reading at any level, some junior and senior subject : science, literature, writing . I have home-schooled my own children and know the importance of sticking to a strict regime whilst being empathetic and understanding. It is important to identify a child's way of learning in order to develop a program that works. I have very good results and testimonials to that effect.
Cathy /Corona.

I have a passion for tutoring and enjoy motivating students to succeed in their educational goals. I am experienced in teaching at all levels in Reading, English, Science, Math, Social Studies, Spanish, Organizational Skills, and Computer Software. I am patient and understand the frustration of students who just “can’t get it in class”.
Michael C/ Riverside.

It is a most rewarding experience when tutoring and you suddenly see “**that light bulb go on**” when they finally understand a subject that has been giving them trouble. I love teaching students to recognize that they “**can do it**”. **Cynthia S./Rancho Cucamonga.**

I believe that I have a natural gift for teaching and communicating with others. I love helping my student improve their grades and see the pride they have in themselves when that hard work pays off. I am very successful in teaching all grades and multi subjects and my students look forward to their sessions with me. I also teach French.
Kristina M/Redlands.

I love working with children, I enjoy their enthusiasm and laughter. I want to be a part of their academic success and take a pride in their lives. I am qualified to tutor Elementary and Middle School in **all subjects**, and experienced with **ADD/ADHD** and **Autism**. I am also proficient in many different computer applications and teach both young and older students. **YaoX/Rosemead**

I believe if you educate a child you instill confidence in them for life. I aim to motivate student, particularly the older ones with Ivy League goals. I am multi-credentialed in all subjects. **John J/ Pasadena**

I love what I do and to coach and mentor children of all ages. I believe it is a privilege to be part of laying a foundation for their future success in life. **Robert C/ LaCanada**
